

Slava Jankin

Chair in Data Science and
Government

School of Government
School of Computer Science
University of Birmingham

I am a political scientist who builds AI systems. My research addresses a central tension of our time: artificial intelligence can both strengthen and undermine democratic governance. I work across three connected strands – understanding how citizens process political information, building AI tools that are transparent about what they measure, and designing institutions capable of governing algorithmic power. My work spans neuroscience studies of political cognition, measurement infrastructure for political text, and multi-agent models of coalition bargaining. I hold grants from the MRC, Wellcome Trust, Horizon Europe and ESRC, and advise the UN, World Bank, European Commission and UK Government.

APPOINTMENTS

Leadership

- Deputy Director and Head of Research, Institute for Data and AI, University of Birmingham, 2024 – present.
- Turing Academic Lead, University of Birmingham and The Alan Turing Institute, 2023 – present.
- Founding Director, Centre for AI in Government, University of Birmingham, 2023 – present.
- Founding Director, Data Science Lab, Hertie School, Berlin, 2019 – 2023.
- Chief Scientific Adviser, Essex County Council, 2017-2019.
- Deputy Director, ESRC Business and Local Government Data Research Centre, University of Essex, 2019.
- Academic Advisor to the UK Home Office, 2015-2017.

Academic Tenured

- Chair in Data Science and Government, joint appointment School of Government and School of Computer Science, University of Birmingham, 2023 – present.
- Professor of Data Science and Public Policy, Hertie School, Berlin, 2019 – 2023.
- Professor of Public Policy and Data Science, joint appointment Department of Computer Science and Electronic Engineering and Department of Government, University of Essex, 2017-2019.
- Associate Professor, Department of Political Science, School of Public Policy, University College London, 2014-2017.
- Assistant Professor, Department of Political Science, School of Public Policy, University College London, 2010-2014.

Postdoctoral Experience (2008-2011)

Postdoctoral positions at London School of Economics (Department of Government), Trinity College Dublin (Department of Economics and IIIS), City University London (Department of Economics), and Mannheim Centre for European Social Research. Teaching responsibilities included econometrics, research methods, and comparative politics.

EDUCATION

- Postgraduate Certificate in Higher Education (PGCE), London School of Economics, 2009-2010.
- Department of Political Science, Trinity College Dublin, PhD, 2003-2009.

- Department of Statistics, Trinity College Dublin, PGDip in Statistics, 2006.
- J.W. Goethe University, Frankfurt am Main, Germany, Microeconomics and Business Administration, 2001-2003. [study abroad]
- Beijing Language and Culture University, People's Republic of China, Chinese Language, 1997-1999. [study abroad]
- Department of International Economics, Belarus State Economic University, BSc Econ with Distinction, 1995–2002.

PROFESSIONAL SERVICE

The University of Birmingham (2023-present)

Deputy Director of the Institute for Data and AI and Head of Research, coordinating university-wide data science and AI research strategy. Turing Academic Lead, developing structured collaborations with the Alan Turing Institute and Turing University Network. Founding Director of the Centre for AI in Government, establishing research infrastructure and recruiting four associate professors, three postdoctoral fellows, and a research data science engineer. Led development and launch of multiple innovative degree programmes including MSc AI and Government (UK and Dubai), MSc AI and Sustainable Development, Mathematics for AI and Data Science microcredential, and BSc AI and Public Policy. Currently developing Joint Masters in AI, Sustainable Development and Public Policy with IIT Madras and Executive Education programmes in technology for public affairs.

Hertie School (2019-2023)

Founding Director of the Data Science Lab, establishing a trans-institutional initiative in artificial intelligence and data science. Developed and launched the MSc Data Science for Public Policy programme. Created the CIVICA social data science seminar series and Data Science Summer School, which attracted over 3,000 participants from 70+ countries. Established research computing infrastructure for the School. Chaired search committee in computer science and public policy.

University of Essex (2017-2019)

University lead for the Essex Centre for Data Analytics (ECDA), joining data science and artificial intelligence capabilities across Essex County Council, Essex Police, and University of Essex. Developed the MSc in Social Data Science. Led the Catalyst Project (HEFCE £2.2m) transforming public service delivery through predictive analytics and impact evaluation. Served on search committees for artificial intelligence and data science positions.

University College London (2010-2017)

Deputy Director, UCL Q-Step Centre in Quantitative Social Science. Led development and launch of undergraduate social data science programme across four departments. Established advanced quantitative methods training across ten MSc programmes. Graduate Tutor (Research) and PhD Programme Director for Department of Political Science. Member of departmental senior leadership group and ESRC DTC Steering Committee. Served on multiple departmental committees and search panels.

Discipline

External expert for the United Nations Department of Political and Peacebuilding Affairs AI and Data Science innovation programme, European Commission Directorate-General for Health and Food Safety, World Bank Finance, Competitiveness and Innovation Global Practice, and other international organisations. Grant reviewer for German Research Council, Economic and Social Research Council, Swiss Research Council, and other major funding bodies. External examiner for LSE Methodology Department MSc Applied Social Data Science. Programme committee member for major conferences including Empirical Methods in Natural Language Processing and Annual Meeting of the Association for Computational Linguistics. Editorial Board member for Legislative Studies Quarterly. Regular reviewer for leading journals including American Political Science Review, American Journal of Political Science, British Journal of Political Science, and 15+ other political science and interdisciplinary journals.

Major Research Networks

Lancet Countdown: Working Group 5 member examining public and political engagement with climate change and health. Member of interdisciplinary research consortium of 35 institutions and 120 scientists funded by the Wellcome Trust. **Lancet Countdown Europe:** Working group lead for politics and governance, developing evidence to support policy making by the European Commission and member states.

TEACHING

Developed and delivered comprehensive curricula in computational social science across undergraduate, graduate, and executive levels at six institutions. Led creation of multiple degree programmes that bridge technical training with policy applications.

Computational Methods and Data Science

Introduction to AI and Computational Thinking, Foundations of AI Technologies in Healthcare, Machine Learning, Natural Language Processing, Deep Learning, Mathematics for Data Science, Data Structures and Algorithms (UCL, LSE, Hertie School, Birmingham)

AI Governance and Policy

AI and Sustainable Development, Governance and Politics of AI, Managing Digitalisation and AI in Government (Birmingham, Hertie School)

Research Methods

Quantitative Methods, Research Design, Econometrics, Time Series Analysis (UCL, LSE, Trinity College Dublin, City University)

Political Science and Public Policy

Comparative Political Institutions, Political Economy of Energy Policy, Democracy and Development, Transition Politics (Trinity College Dublin, UCL, LSE)

Executive Education

AI for Decision Makers, Natural Language Processing for Policy Analysis (European Commission, United Nations, UK Government)

FUNDRAISING AND GRANTS

Strategic investment

- 2023 University of Birmingham Dynamic Investment Fund (DIF) to expand data science and AI provision in the College of Social Sciences (£1.5m, 2023-2027).

Philanthropy

- 2022 Dieter Schwarz Foundation €10m endowment to expand data science at the Hertie School (endowed chair in data science and ten annual merit scholarships for 12 years).

Grants awarded

- 2026 Medical Research Council "NeuroCognitive Shield" Medical Research Council for the UKRI Cross research council responsive mode (Funder Award Reference UKRI3727), £1.2m. Role: Co-PI with Rene Lindstaedt.
- 2024. National University of Singapore (NUS) Academic Health Programme (AHP) Fund. "Multi-country survey of healthcare professionals' views and attitudes towards low-carbon healthcare." Co-I, External Collaborator. (PI and Project Lead Professor Nick Watts Director of the Centre for Sustainable Medicine, NUS). Grant Reference Number: HPHSR-Enabling-Sep24/AHP/C15/NW. Total funding ~ S\$100K.
- 2022 Horizon Europe (HORIZON-HLTH-2021-ENVHLTH-02-03) "Climate Action To Advance Healthy Societies in Europe" (CATALYSE). Working group lead on development of innovative health surveillance and forecasting tools that facilitate effective policy response to environmental health hazards caused by climate change. Total funding €10m. Hertie share ~€1m. PI.
- 2021 "Contestations of the Liberal Script" Centre of Excellence "Leader types and Liberal Narratives of the COVID-19 Pandemic" German Research Council (DFG), €438K. PI.
- 2021 Hertie School Faculty Fund, "Lancet Countdown Health and Climate Change", "Detecting Causal Relationships in Text", "Analysing political discord in social media data", €154K. PI.
- 2021 CIVICA seed funding initiative "Mapping Emotions during COVID-19 pandemic using Twitter data" (EmoMap). Joint project with CIVICA partners (Bocconi, CEU, Hertie School), €56K. Co-PI.
- 2020 "Contestations of the Liberal Script" Centre of Excellence, "Data and Methods Centre", German Research Council (DFG), €740K. PI.
- 2019 Stifterverband Innovation Fund, "Data Science for the Common Good", €15K. PI.

- 2019 Riksbankens Jubileumsfond “Mixed methods for analyzing political parties’ promises to voters during election campaigns: Automatic Classification of Policy Pledges.” **€1.1mln**. Reference number MXM19-1137:1, Co-I, PI Elin Naurin (University of Gothenburg).
- 2019 ESRC Business and Local Government Data Research Centre, **£1.525mln** (total funding including contribution from host institution **£3mln**). Co-I (PI and Centre Director Maria Fasli). ESRC Grant Reference Number ES/S007156/1.
- 2018 Catalyst Fund (“Unstructured Data Sharing”, “AI and Data Science: Cross-sector collaboration issues”) **£62K**. PI.
- 2016 UCL Public Policy Awards (“Data Science and Public Sector: UK Home Office”) **£5K**. PI.
- 2016 Irish Research Council (“Irish Treaty Debates”) **€10K**. Co-I.
- 2014 UCL Grand Challenges Awards (“UN General Debate speeches”) **£14K**. PI.
